SPECIALISTS, P.A.**

VOLUME 1, ISSUE 1

JANUARY 2010

**New Campus gives patients one
stop convenience**

AOS has recently closed its Jackson Hospital office and relocated it to our expanded campus at 4294 Lomac Street in the newly renovated Pavilion Clinic (formerly Wachovia Securities Building). The expanded campus houses our existing main office, the Pavilion Clinic, MRI and Physical Therapy Center. The Physical Therapy Center opened December 21st and houses our Physical Therapy Department which relocated from the Park Place Building on Jackson Hospital's campus. (see back cover)

To Referring Health Care Providers:

Thank you for continuing to entrust your patients to our care. As the communities we serve grow, we are expanding our capacity and services to meet the needs for your patient's orthopaedic care. From providing comprehensive orthopaedics, pain management and sports medicine to opening our new pavilion office, MRI and physical therapy center on our main campus, we remain committed to meeting your needs and those of your patients. Please take a few moments to read our newsletter for the latest news about our practice. We also invite you to visit our website aonline.net to learn more. In addition, we encourage you to call any one of us directly at any time with questions, suggestions or concerns.

Coming August 2010,
Michael Manning, D.O.

Our Mission

The mission of Alabama Orthopaedic Specialists, P.A. (AOS) is to provide a full range of orthopaedic specialty care to our patients and to remain at the forefront of orthopaedic advancements and techniques. We strive to provide each patient with precise, cost-effective and respectful care with the ultimate goal of improving our patients' quality of life.

AOS is a group of 7 sub specialized orthopaedic surgeons dedicated to personalized quality patient care. In addition to being highly trained in general orthopaedic surgery, the physicians of AOS have each concentrated on different parts of the musculoskeletal system. We have fellowship-trained specialists in Hand Surgery, Foot and Ankle Surgery, Arthroscopy, Sports Medicine, Spine Surgery and Total Joint Replacement Surgery. Using state-of-the-art techniques learned in their subspecialty training, our physicians strive to return patients to a fully functional recovery as quickly as possible.

AOS is an integral part of the Jackson Hospital Sports Medicine On-Call program, providing the physician component to the program. This is the only sports medicine program in central Alabama staffed with fellowship trained Sports Medicine physicians. AOS physicians are the team physicians for Montgomery City High Schools and many other public and private schools. This is the largest sports medicine network in central Alabama, encompassing 35 different programs.
